Frontend developer who builds interfaces people remember: React and Next.js with Three.js, GSAP and Framer Motion, tuned for speed (image optimisation, lazy loading, code splitting). 12+ client sites in production, several on their own domains, plus a 3D slot-machine portfolio. Comfortable down the stack when a feature needs an API or a database. Based in Ahmedabad; can join immediately.

EXPERIENCE

Full Stack Engineer · Gravity Multi Media Marketing — Jan 2026 – Present · Remote

- Built and maintain 12+ client web apps across healthcare, legal, finance, travel, e-commerce and inventory.
- Routing, REST APIs, auth, reusable component libraries and database work, from design to deployment.
- Interactive UI with Three.js, GSAP and Framer Motion; image optimisation, lazy loading and code splitting for speed.

SELECTED PROJECTS

Zing Bliss Events · Next.js · GSAP · Lenis — zingblissevents.com

- Production client platform: marketing pages, client-preference quiz, authenticated client portal and admin CMS.

BNI Ares — bniares.com

- Site and member roster for Ahmedabad West's Platinum BNI chapter: members, visitor sign-up and chapter stats.

CMJ Events — clubmjevents.com

- Luxury wedding and event planner: destination weddings, corporate events, portfolio and enquiries.

Vitlead — vitlead.com

- Lead-generation site for Australian mortgage brokers running suburb-targeted Meta ads.

Lightning Kicks redesign — lightning-kicks-redesign.vercel.app

- Concept redesign of a sneaker and streetwear store: faster browsing, cleaner product pages.

Also live in production: Naam Transfer (naamtransfer.com), Prihaan Spices (prihaanspices.in).
