Full-stack engineer shipping production apps end to end: React/Next.js frontends, FastAPI and Node services, Postgres with per-tenant isolation, LLM features with failover, and tests that catch real bugs. 12+ client apps live since Jan 2026. Open to on-site or hybrid roles in Ahmedabad; can join immediately.

EXPERIENCE

Full Stack Engineer · Gravity Multi Media Marketing — Jan 2026 – Present · Remote

- Built and maintain 12+ client web apps across healthcare, legal, finance, travel, e-commerce and inventory.
- Routing, REST APIs, auth, reusable component libraries and database work, from design to deployment.
- Interactive UI with Three.js, GSAP and Framer Motion; image optimisation, lazy loading and code splitting for speed.

SELECTED PROJECTS

Job Search OS · Python · FastAPI · Next.js · Postgres · Cloud Run — job-search-zeta-ten.vercel.app

- 19 job sources scraped concurrently, two-stage LLM scoring, a tailored one-page CV and cover letter per job, live progress over Server-Sent Events.
- LLM layer fails over between NVIDIA NIM and Gemini; generated documents are validated against the résumé before rendering.
- Found and fixed a cross-tenant PII leak through pytest coverage; cut API latency from tens of seconds to under a second.

Pulse AI: WhatsApp agent SaaS · Next.js · Supabase · Groq · Meta Cloud API — whatsapp-ai-agent-inky.vercel.app

- Multi-tenant SaaS: each business runs an LLM agent on its own WhatsApp Business number, isolated with Postgres row-level security.
- Booking state machine and drip-sequence engine; integration tests against the live database caught an RLS misconfiguration.

Zing Bliss Events · Next.js · GSAP · Lenis — zingblissevents.com

- Production client platform: marketing pages, client-preference quiz, authenticated client portal and admin CMS.

Mindcore · Kotlin · Jetpack Compose · AI extraction · v0.9.5 — github.com/Aman241104/mind-core

- Native Android (Kotlin, Jetpack Compose): share a reel, post, link or screenshot; AI extracts repos, tools, certs and jobs, verifies each online, and answers questions about the library with sources.

BNI Ares — bniares.com

- Site and member roster for Ahmedabad West's Platinum BNI chapter: members, visitor sign-up and chapter stats.

Also live in production: Vitlead (vitlead.com), Naam Transfer (naamtransfer.com), CMJ Events (clubmjevents.com), Prihaan Spices (prihaanspices.in).

SKILLS

Languages	TypeScript, JavaScript, Python, Kotlin, SQL, C++, Java	**Frontend**	React, Next.js, Tailwind CSS, GSAP, Framer Motion, Three.js / R3F, React Query, Vite
Backend & APIs	Node.js, Express, FastAPI, REST APIs, Server-Sent Events, NextAuth	**Data**	PostgreSQL, Neon, Supabase, Drizzle ORM, MongoDB, MySQL, FAISS
AI	Gemini, Claude, NVIDIA NIM, Groq, RAG, Tool calling	**Cloud & ops**	Vercel, Google Cloud Run, Cloudflare Workers, Docker, GitHub, Cloudinary, Resend, PostHog, n8n
Mobile	Android, Jetpack Compose, PWA	**Testing**	Pytest, Vitest, Jest, Playwright

EDUCATION

B.E. Electronics & Communication · L.D. College of Engineering, Ahmedabad — 2022 – 2026 · GTU · CGPA 8.67
